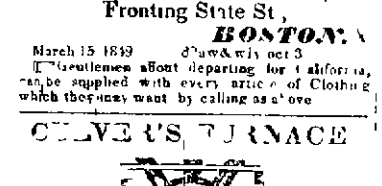
IMPORTANT TO OWNERS OF HORSES AND CATTLE



DILLOWS CELEBRATED HEAVECURE AND UNIVERSAL CONDITION MEDICINE which has been used with such astonishing success in France and England for the last twenty years—is now and has been for the last three years performing the most wonderful cures ever on record in this country—It is universally admitted to be a sure specific in the following diseases in Horses and Cattle:—

In Horses—Heaves, Chronic Cough and Common Colds, Affections of the Bronchial Tubes and Glands, Horse Distemper, Founder of the Chest and Limbs, Sorfoil, Dropsy of the Chest and Skin, Hide Bound, Botts and Worms,—And in all cases where inflammation exists, also where a general Condition of Health is needed.

In Cattle—Botts, Cholic, Loss of Cud, Inward colic or Yellows, Fever, Staggers, Horn Distemper, Dysentery, Scurf or Scab, Black Tongue, Milk Fever, Coughs, Colds, and when Cattle are out of condition. It has been also used with like success in the following diseases among Sheep—Scab, Staggers, Fever and Dropsy. It is also a sure cure for Measles and Murrain or Leprosy in Swine.

☞ Give the article a trial and it will recommend itself.

☞ CAUTION.—We caution the public against all "Heave Powders" or "Heave Compounds" that have not the written signature of J. H. Grant on the inside of each wrapper. Be sure to ask for DILLOW'S HEAVE CURE AND UNIVERSAL CONDITION MEDICINE. Be careful and see that you get it as it is the only remedy that you can depend upon to thoroughly eradicate the whole disease. ☞

McKENNEY'S

COSSACK SALVE!!

An Invaluable Remedy

FOR Fever Sores, Rheumatism, Swelling of the Feet and Limbs, Swelling of the Breast, Sore Throat, Chronic Eruptions of the Skin and all Scrofulous Diseases, Rigid Cords occasioned by Colds or Strains, Stiff Neck, Chilblains or Chapped hand, Sore or Inflamed Breast, Weakness or Pain in the Stomach, Piles, Corns, Warts and Common Sores and Cuts and Bruises of all kinds.

In bringing this article before the public we are aware that we labor under no small disadvantage amidst the multitude of All Healing Ointments and Panaceas that are now advertised as the *most effectual* and *certain cures* for all diseases and criminately to which man or animals are subject.

A history of this Salve and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—a reference to which is invited before purchasing.

We would only add that we have undertaken the task of manufacturing the above named Salve at no inconsiderable trouble and expense, not so much as a matter of speculation and pecuniary benefit as in compliance with the earnest and repeated solicitations of personal friends and those who have experienced its wonderful medicinal and all-healing properties.

To say indeed that we do not expect to realize a handsome remuneration for our services, would be alike useless and untrue. But we flatter ourselves that if, for both, we are richly paid and the article soon, very soon has an extensive sale—the Public are receiving a full and ample equivalent.

As we have already intimated we do not and shall not call to our aid the empty *puffing of the Press*, or the bought certificates of individuals and shall make use of them only so far as they have been or hereafter may be entirely *calculating* and *unsolicited*.

The Salve is now before the Public!

They, and they alone, will declare upon its real virtues and medicinal properties. To say less were injustice to ourselves—to say more would be superfluous.

Here are some of the many Certificates:—

The subscriber was afflicted with a Fever Sore upon his leg for about six years, and in the winter of 1845 it commenced swelling from the ankle to the knee. After using many remedies without success I applied some Salve obtained of Mr A. M. McKenny and continued its application until I had used six bottles which entirely cured me and I have had no return of the disease since. I would also say that I know the above Salve to be a cure for Corns, one of my family having used it for this purpose with complete success.

DANIEL SEAVEY

Dexter (Maine) May, 1846

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year, and having tried various means to effect a cure without success which cost me about forty dollars I bought 14 oz of JONATH McKENNEY'S SALVE which effected an entire cure in less than two months.

SIMEON MARSTON

Gray May 11 1846

BANGOR June 5, 1846

Mr McKenney—In going into the woods in the autumn of 1845 with the charge of quite a number of men for the winter lumbering operation I was induced to take a few bottles of your Salve, it having been recommended to me as one of the best remedies for accidental Cuts and bruises, and I found indeed, to my great satisfaction that it was an invaluable article. I also made application of it in cases of Cuts, Sprains and Bruises upon my cattle and found it equally beneficial. It can truly be called the All Healing Salve.

AMERICAN AND FOREIGN OFFICE,

And Agency of the U. S. Patent Office, Washington

92 State Street—Boston.

THE subscriber by appointment from the Commissioner of Patents, is Agent of the U. S. Patent Office for receiving and forwarding to the same models, specimens of manufactures to be patented, or deposited therein which will be sent *free of expense and risk* and with despatch. He will prepare Caveats, Specifications, Assignments and all the necessary Papers and Drawings for Patents, will make researches into American and Foreign works, to test the validity of inventions and render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *verbally* explaining their inventions, and of consulting in respect to them, *matters, in general, of paramount importance in order to obtain correct specifications and claims*. The experience of sixteen year's practice, an extensive collection of rare works, designs, &c. on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors, desirous of procuring Patents, assistance and information, on which in other respects might be difficult of attainment.

SATURDAY, MAY 12, 1849.

Meeting of the Legislature.

The members elect of the Legislature met at the State House on Wednesday, May 9th

The following Senators elect assembled in the Senate Chamber and the oath of office was administered by the Governor

From the 1st district, Samuel W Fox, Thomas Dyer, 3d, Daniel Dam

From the 4th district, John T P Dumont, Oliver Bean, Oliver Prescott

From the 5th district, Adams Treat, Joab Harriman, Thomas M Morrow

From the 9th district, John Hodgdon

From the 14th district, Philo Clark, James H Farnum, James Hobbs, Jr

There not being a quorum present, they proceeded to make choice of officers protem, and Daniel T Pike was chosen Secretary and John Hodgdon President

The members elect of the House of Representatives formed a convention and the oath of office administered by the Governor, they then organized by the choice of Edmund W Flagg, Clerk, Alanson B Farwell, Assistant Clerk, and Samuel Belcher Speaker Philip Phillips of Turner was chosen Messenger, and Rev Amariah Kallock was appointed Chaplain

This brief manner of reporting the facts in the case will undoubtedly be as satisfactory to our readers as giving the details and ballotings and all that sort of matter, swelling it to more than a column

We shall keep an eye upon all the proceedings of the Legislature and shall give such accounts of their proceedings as will be of interest to the mass of our readers, but not to the extent they are reported in the Augusta papers for there are few States in which the sayings and doings of the Legislature are reported at so great length as in Maine, and we doubt very much whether any real good comes of it

U. S Troops on the Route to the Pacific.

Col Sumner of the U S Army is, as we learn from an attentive correspondent, to start from Fort Leavenworth, Mo about the tenth of June to select a site for a Fort near Fort Laramie and to make a tour of military observation from there on to the South Pass of the Rocky Mountains He will be escorted by a detachment of Dragoons under Maj James Henry Carleton This will be a very fatiguing but a highly interesting journey, and we are promised a series of journalized sketches which we know will possess much interest

The Rifle Regiment under Col Loring were at last advices at Fort Leavenworth preparatory to taking up the line of march for Oregon Two companies of this one of the 6 Infantry will garrison the new Post at or near Fort Laramie, at the foot of the Rocky Mountains on this side, two more will establish a post on Bear River, which our readers will remember runs into the Big Salt Lake, where the Mormons have selected their homes, the remaining six will move down the Pacific Slope and be scattered from Bear river to the mouth of the Columbia, thus forming a military cordon on the great thoroughfare from Missouri to the shores of the Pacific

Fort Leavenworth is the point in military phrase d quo, the next post, Fort Kearney on the Platte River 300 miles distant will be garrisoned by two companies of the 6 foot under, Col Hoffman and Major Chilton a troop of the 1st Dragoons The next at Fort Laramie 700 miles farther, the next at Bear River 400 miles more, and so on to the Pacific

Coalition in the Connecticut Legislature.

The result of the Free Soil movement in Connecticut has resulted in the choice of a locofoco as Speaker of the House of Representatives There was not quite sufficient strength in the coalition to defeat the Whig candidate for Governor, but the abolitionists or profess ed technical Free Soilers voted in a body with the supporters of the Atherton Gag for the Loco candidate for Governor, who in return voted for Mr Burleigh, the editor of the Free Soil organ, for State Printer, although he had previously taken occasion to speak in a highly offensive manner of the Connecticut returned volunteers Such coalitions may answer for a while but they breed a brooding of monsters that will devour their parents.

The New York Commercial declares against an excess of Periodical and novel reading, of which so many of the rising generation are guilty, and urges the people to go to the fountain head for their knowledge

The master minds who have left us their strong thoughts in solid volumes, and instead of wasting their mental energies, and impoverishing themselves by this diffusive reading, concentrate their minds into close study for a few hours each day, and let the whipped syllabub of periodical literature be only the dessert, to be partaken of sparingly, and only when graver studies require the change

It is a remarkable fact, that the first apple in Paradise should have turned out the first pair

A Good One.

Our very distinguished field-driver and town crier, John O'Bolivan, is not slow at a retort — The other morning, after crying a sale at a corner, a young man, thinking to get the laugh upon John for his Irish pronunciation, called to him —

"Read that over again, I could ot understand it

"Go to school!" responded the crier, and he was off in a twinkling while the bystanders were enjoying a laugh at the discomfitted youngster

More about Col. Fremont's Disasters.

Mr Taplin, one of the sufferers in the disaster which recently befel Col Fremont a party, is now in this city He has entirely recruited his health and strength, and with true American perseverance is making arrangements for the second trial of a journey to California The account he gives of the terrible privations and sufferings endured by the party to which he was attached, corresponds in every particular with that of Col Fremont The wretchedness of their condition for a while, he says, passes human conception

Of the ten men who died, two, Messrs Wise and Andrews, were well known citizens of this place Proue was a native of France, Morain a resident of Illinois, whose relations we believe are in Cahokia, Beadle a resident of this county, Rubser and King, citizens of Georgetown, District of Columbia, Hubbard, from Milwaukee and Carver from Chicago

The fate of Mr King was most heart rending He was, says Mr Taplin, a man in the spring time of life, of cultivated mind and the most engaging manners He had been married but two weeks previous to his departure on the expedition, and was only a short time with the company ere he had gained the friendship and esteem of every member When Fremont's party had first lost their horses, a company of four men, of which King had been appointed leader were dispatched to the settlements to procure succor Sixteen days after their departure — Fremont (who having become impatient of the protracted stay, had determined to go himself in search of supplies) overtook them He found Williams Breckenbridge and another, scarcely able to proceed from exhaustion

King had died, and his remains, which the party carried with them, had been more than half eaten up by his companions A dire necessity had left them no choice, and it was done in self protection Up to nearly the day of his death, King had kept a journal The last entry written upon it is this Dec 11 — This morning, as usual, I have had a quarrel with Bill Williams Nothing to eat We travelled one mile and a half to-day The cause of the difficulty with Williams was the latter's increasing weakness, and his inability to proceed King endeavored by remonstrance to urge him forward

So long as Fremont remained in the camp, says Mr Taplin, his presence was a great encouragement to his men, and they were, as much as could be expected, reconciled to their condition, but as soon as he left them to go in quest of assistance, the more inexperienced members lost all kind of hope They considered their fate already sealed Thus Morain wandered in the neighborhood of the camp in search of game, and finally followed in the footsteps of Col Fremont, with a desperate hope of overtaking him He had not gone far, however, when total exhaustion compelled him to lie down for his final rest Those in camp (among whom was Mr Taplin) who survived, submitted as best they could on raw hide, but this, also would have faded to sustain them, had not assistance arrived as soon as it did

A GAME OF FREEDOM.

Truth is strange stranger than fiction

A short time since several American ship masters were assembled in one of the public houses of a large commercial port in the Island of Cuba, and were passing a leisure afternoon, by watching with much interest a game of billiards between a Spanish merchant a resident of the place and an American ship master, both of whom were considered very skillful players Several games were played and fortune favored the American captain, at last the stakes against the Castilian had become quite large, and vexed at his ill luck and loss of reputation as a skillful player, he proposed to stake his servant boy, a lad of about ten years of age, against the sums due the captain—valuing the lad at $275 — "Take him, take him," was the cry from every quarter of the room, and, "if you win the boy we will redeem him and make him free"

The offer was accepted, and the game commenced amidst a numerous company of spectators, whose curiosity was excited by the singularity of the stakes and the skill of the players

The Spaniard's luck seemed to change and he was evidently leading his opponent, when, too confident of his skill, or excited by the interest manifested around him he lost his lead and missed a high count he hoped to make — Now came the moment of either success or defeat to the American, for the balls lay in position when a skillful player aided by good luck could by one stroke of the mace count out, but to an unskillful player would result in the loss of his lead

The captain hesitated but for a moment, and slowly, yet firmly, drawing home his mace he struck the ball so firmly and so fairly that he made seven and won the game

A shout of triumph went up from the spectators, while the Spaniard with true Castilian fidelity to his pledge, went immediately to the proper officer and made the legal transfer of the boy The American captains asserted by several of the merchants, at once made up a purse to redeem the boy and secure him his freedom by sending him from the Island For humanity's sake, we wish the captain had made a free will offering of the lad to freedom, but he consented to take less, however, than the value of the boy

The sum was at once raised and the boy sent on board a vessel bound to the United States, and now walks the streets of Portland a freeman

With his long hair and light complexion, he would not here be taken for a colored person, and we doubt not that friends here may be found who will give him a good education, and thus make him mentally, what nature physically, has intended he should be, a freeman

From the New York Tribune

Deep Plowing.

Newark, N J April 28.

H GREELEY, Esq —Dear Sir In my last communication I promised to give your readers some account of my experience in Deep Plowing Before entering immediately upon the advantages to be derived from Deep Plowing, it may be well to give the reasons why *plowing at all* is necessary for encouraging the growth of plants

1 The mechanical sustaining of the roots of plants and necessarily of the plants themselves, in proper position, and at the same time that the mass of soil should be pervious to the increasing length of roots

2 The reception and attention of those gases, fluids &c which Nature's laws supply to the soil, until the requirements of growing plants shall appropriate them

3 Such mechanical condition of particles as shall best tend to the ready parting with excessive quantities of moisture and soluble excrementitious matters, arising from vegetation

4 Free admission of such components of the atmosphere as by combination with the constituents of the soil, cause them to undergo changes beneficial to their general properties.

It is well known that, if soil is disintegrated but to slight depths the roots of plants, on reaching the compact or undisintegrated portion cease to be healthy and refuse to sustain the plant—thus meadows when seeded down with the surface only disturbed and not properly plowed, will soon run out —for the under soil, from not receiving the influence of the atmosphere, remains sour, and unfitted for supplying the necessary element at the terminus of the roots consequently the plants die If meadows be deeply plowed, they will last much longer without re-seeding, and, when both sub soiled and deep surface plowed the instances has not yet occurred where re seeding became necessary. Lucerne (French Clover,) will grow for one, two, and sometimes three years on shallow-plowed land, but if the soil be deep and free, as in some parts of France it has been known to flourish with increased vigor for fifty years When Lucerne fails, the close observer will find that the roots have reached soil that has not been disintegrated

This effect is common to most plants and no error is more common than to mistake the length of roots of plants Those of the ordinary Corn stalk will average 5 to 6 feet in length, and if a field be planted with Corn in hills 4 feet apart, no portion of the soil to the depth disturbed by the plow, of one inch cube, can be found that does not contain roots Many of them are too small to be discerned by the naked eye, but still they exist, and their termini are the only part capable of receiving nutriment Even the common Onion has roots 18 inches long, and many of these will descend to their full length if the soil has been sufficiently disintegrated The roots of most plants descend generally an average of two-thirds their length a portion only maintaining the horizontal position

Soil has the power to absorb and retain many of the gases found in the atmosphere until required by the growing plant and this retention is just in proportion to the quantity of surfaces of particles exposed, and, therefore, an unplowed surface cannot avail of this action nor can shallow plowed land receive as much benefit from this cause as that more deeply disintegrated The rationale of this action I will explain in a future letter

Compact soils will not permit the water resulting from rains to enter them, and shallow plowed land will hold a large quantity of water near its surface, when, from deeper disintegration, it might pass downward to a sub-soil capable of freely receiving it Heavy lodgment of water about the roots of most plants is detrimental to their growth, while large quantities passing over their surfaces without being received will carry off the more soluble portions of the manure

Growing plants not only receive but throw out matter from their roots, for they reject certain portions which are termed excrementitious these, in well disintegrated soils are got rid of, but when shallow ploughed they remain on the impervious soil, and from their proximity to the roots, injure the plants

All soils are improved by continual contact with the atmosphere and many constituents of the soil are useless to plants until they have been thus operated upon, the particles of soil have also the power to absorb the resultant gases of the decomposing manures, but only after disintegration, and as these gases, if not absorbed will be carried off by currents of wind, it becomes necessary in economical culture to prepare as much soil for their reception as may be required and this quantity is found to be greater than can by possibility be rendered pulverulent by surface plowing, even when performed to the full depth of ordinary surface soil I have proved this fact fully, for such parts of my farm as were thoroughly plowed to the full depth of the loam, say seventeen inches, did not give as good crops as other parts where the sub soil had been disturbed to a still greater depth by the sub-soil plow run in the bottom of the furrow left by the surface plow

The advantages of sub-soil plowing I shall reserve for my next letter, but to return to those of deep surface blowing

No farmer can doubt that a deep soil can yield better crops than a shallow one Let us suppose, then, a soil to be 8 in deep and underlaid by clay, and that the farmer should plow to the depth of 8½ inches, and thus bring up half an inch of clay to be acted upon by the atmosphere and rendered into good soil, that the clay will undergo this change even in a single year we cannot doubt if its proportion be no greater than stated above Let this practice be continued four years and the soil will then be 10 inches deep, and when at that depth, an inch of clay may be added each year without his discovering that his land is any more clogy than before he commenced the deepening, but its power to produce plants will be materially increased If the plowing be done in the Fall, and as performed by back furrowing as to rage the land two inches of clay instead of one may be safely thrown out on the surface of these ridges and the frequent freezings and thawings of Winter will render it perfectly pulverulent by Spring, and charge it with the necessary constituents of ammonia and carbonic acid from snow water to enable the clay so changed to form a valuable addition to the mass. The farmer should bear in mind that the ultimate constituents of plants are never destroyed, for when a plant is consumed, decays or is even burned, its ultimate particles are thrown again on the face of Nature for reappropriation The consumed crops of 1849 will supply the raw material for the manufacture of those of 1850, and he should have his soil in a condition to receive his share of Nature's bounties

I remain, Sir, yours respectfully,

JAMES J MAPES

The White Nile.

The January number of Blackwood contains an article of great geographical interest, reviewing Werne's Narative of a Voyage up the White Nile. The writer says —

"We can conceive few things more exciting than such a voyage as Mr Werne has accomplished and recorded. Starting from the outposts of civilization, he sailed into the very heart of Africa up a stream whose upper waters were then for the first time furrowed by vessels larger than a single canoe—a stream of such gigantic proportions, that its width a thousand miles from the sea, gives it the aspect of a lake rather than of a river The brute creation were in proportion with the magnitude of the water course The hippopotamus reared his huge snout above the surface, and wallowed in the gulfes that on either hand run down to the stream, enormous crocodiles raped along the shore, elephants played in herds among the pastures, the tall giraffe stalked among the lofty palms, snakes, thick as trees, lay coiled in the sluggish swamps, and ant hills ten feet high towered above the rushes Along the thickly-peopled banks, hordes of savages showed themselves, gazing in wonder at strange ships, and making ambiguous gestures, variously construed by the adventurers as signs of friendship or hostility Alternately sailing or towing, as the wind served or not, constantly in sight of natives, but rarely communicating with them; often cut off for days from the land by interminable fields of tangled weeds—the expedition pursued its course through innumerable perils, guarded from most of them by the liquid rampart on which it floated Lions looked hungry, and savages shook their spears, but neither showed a disposition to swim off and board the flotilla"

A new steamboat, built at Waterville by the Messrs Moore, to run on the Merrimac river made her appearance at our wharves on Monday She is not yet completed. Her machinery, we believe, is ready to be put in, and was constructed at the Machine Shop in Lowell, at Hallowell She is a fine-looking boat, and no doubt do a good business —Augusta Farmer

ARRIVAL OF THE STEAMER

HIBERNIA

AT HALFAX.

ST JOHN, N B, May 11, 10 A M

The Hibernia, Capt Stone, with 43 through passengers, arrived at Halifax at about 5 o clock last evening, bringing London papers to the eve of the 27th, and Liverpool papers of the 28th ult, her day of sailing

The amount of specie by the Hibernia is stated to be £80,000

Hostilities between Denmark and Prussia still continue to be waged without any preponderance on either side likely to effect the eventual issue

Information was received at Liverpool just previous to the sailing of the Hibernia that the American steamer Herman and Washington had obtained permission from the Danish Government to carry passengers and goods to and from Bremen without search or detention of any kind whatever

Father Mathew it is now said will positively sail for New York in the Ashburton on the 22d of May

The market for Bread stuffs has been inanimate this week, with limited operation at a decline upon last week of 2d to 3d on wheat 6d to 9d on Flour and 1 to 2s 6d on Indian Corn Best western Canal Flour is worth 23s to 23s 3d per bbl, Philadelphia and Baltimore 23s to 23s 6d New Orleans and Ohio 23s 6d to 24s, Canadian 23s to 24s and U S and Canadian, sour 23s, Indian Corn 27s 6d to 31s, white 31s to 32s, Corn meal 14s to 15s per bbl — The market yesterday was somewhat animated— Every arrival being in improved demand and transactions closing with a firmer feeling

The ship Emigrant from the United States bound to Bremen with a cargo of tobacco has been made a prize and sent into Copenhagen

News from France more encouraging—considerable revival in trade in Paris

Androscoggin and Kennebec Railroad.

Our back route friends are pushing their road with vigor and intend to have it completed as far as Winthrop village early in July The only drawback, says the Lewiston Falls Journal, has been in the filling up of a slough at a place called 'Mine Meadow, (in Lewiston or Greene) It was spiled last fall to the distance of 1100 feet and the piling covered with earth, but this spring some 200 or 300 feet of it disappeared — The contractors have since put in earth enough, it is estimated, to fill a depth of 45, ft and have now a steam engine at work throwing in several thousand cubic yards per day The Journal thinks it will not prevent the road from being completed to Winthrop by the time assigned — The rails are laid for six miles this side of Lewiston Falls and the track layers are now at work from Winthrop west The work on the Portland and Kennebec road has been retarded somewhat, near Bath, by an obstruction similar to the one above named but we believe it has been overcome, so that the cars will be able to reach that place also in July —Ken Journal

Large Salmon.

A salmon was taken at this place on Monday morning by Mr Charles Hume which weighed 36 pounds Mr H who is an old salmon fisher, says this is the largest he has seen for thirty years It was purchased by Mr Robinson of the Augusta House, and served up yesterday the first day of the present Legislature session A salmon weighing 31 pounds was taken last week by Mr Hume, and one of 26 pounds by his brother Capt Wm Hume Capt Hume s boys took four on Monday night three of which weighed about 24 lbs each Our Kennebec fishermen challenge the State to produce a larger salmon than the first one mentioned above The price obtained for them now is about 25 cents

NEW WATER CURE ESTABLISHMENT

....AT....

GORHAM, MAINE.

THE subscriber has taken that beautiful and eligible situation in Gorham, Maine, known as the WOODBURY ESTATE which he has fitted up for a

Water Cure Establishment,

And which will be open for the reception of patients on the first day of May instant

The House is large elegant, and commodious,—the rooms spacious and airy and the whole is furnished in such a manner as to gratify the taste, while it secures the comfort and promotes the health of the inmates

The location of this establishment is such that it leaves nothing in that respect to be desired It is one of the most delightful residences in New England, and combines the advantages of the rural pleasures and quiet of the country with near proximity to the city It is one mile from Gorham village, and only eight miles from the city of Portland, hence it is easily accessible from all parts of the country

The water is pure and abundant,—the most convenient arrangements for its application will be adopted; and no pains will be spared to render the treatment efficient.

The Proprietor, being a regularly educated physician, and having had much experience in other modes of practice, as well as in Hydropathy, and having, moreover, visited the most celebrated Hydropathic Institutions in England, France, Germany and Italy, for the purpose of obtaining a thorough knowledge of the system confidently hopes to give satisfaction to all who may place themselves under his care

Genteel Horses and Carriages, good saddle Horses, and various amusements of innocent and healthful amusement, will be provided

CELEBRATED ENGLISH

Pale Ale!

THE Subscribers have purchased the right of manufacturing and vending HINKLEY'S IMPROVED PATENT BEDSTEAD for the city of Bangor

This improvement is simple in its construction and consists in furnishing a substantial Bottom to Bedsteads which shall be elastic and have all the advantages of a Slat, or Backing Bedstead, while at the same time, it serves to secure the posts and rails compactly together without other aid It can be fitted to any Bedstead *old* or *new*, with much less time and labor than is required to put in a cord and when fitted, gives *great strength* and support, and keeps the Bedstead in proper shape It cannot be doubted that this simple improvement, will when known, take the place of every other method now in use. We can confidently recommend the above improvement to our customers and to the public, as the cheapest, most substantial and best Patent Bedstead ever invented

The Public are respectfully invited to call and see for themselves. SHAW & MERRILL, m29 tf No. 25, Main Street, Bangor

SAVE YOUR DOCTOR'S BILLS

Thousands of dollars of doctor's bills have been saved by the use of this medicine, and there is little doubt that if it were more generally recorded than it is, sickness would in most cases be prevented

New York April 17, 1848

This is to certify that I have used Wright's Indian Vegetable Pills in my family for more than four years, and as a family medicine believe them the best in the world During that period I have had no occasion for a physician though my daughter on whom they have been very low several times WILSON THREADWELL, Rivington Street

NERVOUS DEBILITY—LOSS OF ENERGY

Wright's Indian Vegetable Pills especially and permanently restore the declining powers of the human body This may at first be doubted, but in fact testimony is published Those who use the *celebrated* Sarsaparilla for this purpose, overlook in doing so, a medicine far less expensive and more effectual

Clymer Chautauque Co N Y, Oct 5th 1848

Dr Wm Wright—Sir—For the last three or four years I had been gradually running down and finally became so weak that I was unable to perform my usual labor I was advised to try your Indian Vegetable Pills and I am gratified to state that by the use of three or four boxes I began to feel like myself again and am now thoroughly cured

From my own experience I can commend your Pills to the sick with the confidence that they will be found a medicine of great efficacy and value Yours truly, JOHN CLEAVELAND

Principal Office,—No. 30, India Street, Boston.

Please read the following certificate of a highly respectable and aged gentleman

RINDGE, N H April 1, 1848

To all whom it may concern

I the undersigned do hereby certify, that I was acquainted with the late Dr Stephen Jewett from my boyhood up to the time of his death and having been his nearest neighbor can testify to his medical skill and knowledge of Botany with hundreds of others now living, and that in the year 1814 I was afflicted with jaundice palpitation of the heart pain in the side, and general debility, so as to be *unable to attend to any business* and being a neighbor of the late Dr Stephen Jewett, I had recourse to his far famed *Bitters* and *Plaster* and by their use was permanently cured, Since the above named date, I have used Dr Jewett's medicines with equally good effect as prepared by Stephen Jewett, son of the late Dr Stephen Jewett of Rindge N H and I cheerfully recommend them to the public as safe and invaluable medicines,—and being composed entirely of vegetables I think them far better suited to the diseases of our climate than medicines composed of minerals or foreign nostrums Try them, and judge from facts and experience I consider Dr Stephen Jewett's Strengthening Plaster far superior to any external application, for the purposes for which it is recommended, of any that I have ever known

EBENEZER BLAKE

DR STEPHEN JEWETT'S

Health Restoring Bitters.

These Bitters acting as they do upon the Stomach, Liver, and Bowels, removing all the morbid secretions, thereby purifying the blood and invigorating the digestive organs not only cure disease that already exist, but they also fortify the system against all attacks of disease It is a common remark among those who have used Dr Jewett's Bitters that they have but little fear of being sick The remark is strictly true, for while the stomach and bowels are kept in a good condition, and the blood pure, all the great predisposing causes are removed and the whole system is fortified against those morbific influences which under less favorable circumstances would have rendered perhaps fatal disease

In order that the public may know that they are offered a truly excellent article we append the following certificate which may be seen with numerous others in their original, by calling on the proprietor

BOSTON, May 15, 1848

To all whom it may concern —This may certify that I have been for years troubled with a scrofulous humor which has been very troublesome and was fast undermining my health and had severe pains in the back, loss of appetite, languor, and general debility

A short time since I commenced taking Dr Jewett's Health Restoring Bitters, and in a very short time my humors and pains left me my appetite improved and my health has not been so good for years all of which I attribute to Dr Jewett's Health Restoring Bitters

(Mrs) E H RUSSELL, Beach Street

DR STEPHEN JEWETT'S

Pulmonary Elixer.

Nearly one third of all the deaths that occur in New England are caused either directly or indirectly by diseases in the Lungs and Chest Why is this great sacrifice of human life? How happens it that the brightest intellects, of the highest promise the hope and support of declining years are smitten down in early life? Why is it that so many families have been made desolate by that fell destroyer Consumption? And how happens it that so many interesting and lovely children are cut down every year by those dread diseases the Quinsy and Croup? Is it because these diseases are incurable? Physicians will tell you these diseases can be cured,—if taken in season

It is true these diseases can be cured with almost absolute certainty—if taken in season Everybody should be aware of this fact and provide themselves with Dr Jewett's Pulmonary Elixer

The following certificate among numerous others which have been received, are appended for the benefit of those who desire to see certificates

WINCHENDON Mass *March* 10, 1848

Stephen Jewett—Dear Sir,—I feel it a duty to you and to the public generally, to inform you all, who may have been afflicted as I have, that I have been entirely cured of a severe and long continued cough, by one bottle of your Pulmonary Elixer —For months I have been a great sufferer I had pain in my left side, sore throat, constant cough, and raised a good deal of bad looking matter My strength was gone, and my flesh was wasting away I took many things without benefit and was steadily getting worse, till I procured your Pulmonary Elixer which has cured me, and I cheerfully recommend it to all who are troubled with coughs

Yours truly THOS CUMMINGS

DR STEPHEN JEWETT'S

Strengthening Plaster.

These Plasters possess the property of *removing Pain curing Lameness, Cramp Pain or Weakness in the Back Joints or Side, Rheumatism, Weak Stomach*, &c, and when used in connection with the Bitters, in Liver Diseases, will prove very beneficial in removing the peculiar pain between the shoulders and in the side and back, well known to those suffering with such diseases This Plaster from the quantity and quality given is vastly cheaper than and superior to the "Poor Man's" or any other Plasters, and can be made any size wanted, without waste One roll will make five good sized Plasters. A single trial will be all the certificate necessary

COMPOUND EXTRACT OF

SARSAPARILLA,

Wonder and Blessing of the Age

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

This Extract is put up in Quart Bottles—it is six times cheaper pleasanter, and warranted superior to any sold It cures without vomiting purging, sickening or debilitating the Patient

The great beauty and superiority of this Sarsaparilla over all other medicine is while it eradicates disease it invigorates the body It is one of the very best

SPRING AND SUMMER MEDICINES

ever known It not only purifies the whole system and strengthens the person, but it *creates new, pure and rich blood* a power possessed by no other medicine And in this lies the grand secret of its wonderful success—It has performed within the last five years, more than 100 000 cures of severe cases of disease, at least 15 000 were considered incurable It has saved the lives of more than 5 000 children during the two past seasons

40 000 *CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY*

Dr Townsend's Sarsaparilla invigorates the whole system permanently For those who have lost their vigor and energy by the effects of medicine or indiscretion committed in youth, or the excessive indulgence of the passions and brought on a general physical prostration of the nervous system, lassitude, want of ambition family quarrels, premature decay and decline in strength and vigor, that fatal disease consumption, rather than be restored by this precious remedy This Sarsaparilla is far superior to any

INVIGORATING CORDIAL

As it renews and invigorates the system gives activity to the mind and strength to the muscular system to a most extraordinary degree

CONSUMPTION CURED

Cleanse and Strengthen Consumption and cured Bronchitis Consumption Liver Complaint, Colds Catarrah, Coughs Asthma Spitting of Blood Soreness in the Chest, Hectic Flush Night Sweats Difficult or rapid expectoration Pain in the Side &c, have been and can be cured

SPITTING BLOOD

New York April 28 1847

Dr TOWNSEND—I verily believe that your Sarsaparilla has been the means, through Providence, of saving my life I have for several years had a bad cough It became worse and worse At last I raised a quantity of blood, had night sweats my strength was gone, debilitated and reduced and did not expect to live I have only used your Sarsaparilla a short time and there has a wonderful change been wrought in me I am now able to walk all over the city I cough no blood, and my cough has left me You are welcome to do what you please with this letter, for I am so thankful for these results

Your obedient servant,

WM RUSSELL 65 Catherine st

RHEUMATISM

There is only one of more than four thousand letters of the testimony that Dr Townsend's Sarsaparilla has cured Rheumatism severe and chronic cases show its extraordinary virtues

James Conolongue Esq one of the assistants of the Lunatic Asylum Blackwell's Island testifies in the following letter

Blackwell's Island, Sept 14, 1847

Dr Townsend—Dear Sir I have suffered dreadfully for nine years with the Rheumatism and for the time I could not rise, sit up or walk I had the most distressing pains, and my limbs were terribly swollen I have used four bottles of your Sarsaparilla and they have done me more than one thousand dollars worth of good I am so much better—indeed I am entirely relieved You are at liberty to use this for the benefit of the afflicted Yours respectfully

JAMES CUMMINGS

FITS FITS FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits of course never recommended it but we are surprised to receive the following from a respectable and respectable Farmer in Westchester County

Fordham, August 13, 1847

Dr Townsend—Dear Sir I have a little girl seven years of age who has been several years afflicted with Fits we tried almost every thing for her, but with no success at last although we could find no encouragement in your circulars for cases like hers, we thought, as she was in very delicate health, we would give her a trial of your Sarsaparilla, and are very glad we did for it totally restored her strength, but she has had no return of the Fits to our great pleasure and surprise She is feeling very happy and healthy which we feel grateful Yours respectfully

JOHN BUTLER, Jr

FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a speedy and speedy cure for Incipient Consumption Barrenness Prolapsus Uteri or Falling of the Womb, Leucorrhœa Whites, Leucorrhœa or Whites, obstructed or difficult Menstruation Incontinence of Urine or involuntary discharge thereof and for the general prostration of the system—no matter whether the result of inherent causes or causes, produced by irregularity illness, or accident Nothing can be more surprising than its invigorating effect on the human frame Females all weakness and prostration from taking it, at once become robust and full of energy under its influence It immediately counteracts the ill effects of bad or improper food and is the great cure of Barrenness—It will not be expected of us, in cases of bad debility and constitutional exhaustion to exhibit certificates of cures performed but we can assure the afflicted, that hundreds of cures have been reported to us Thousands of cases where families have been without children after using a few bottles of this and other medicine, have been blessed with healthy offspring

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints But to those who have reason to suppose she is approaching the critical period, "*The time of life*" should a bottle be taken as this a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life This period *may be delayed for several years by using this medicine* Nor is it less valuable for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject

It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not by its stimulating are to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease By using a few bottles of this medicine, many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attendant upon child birth ever discovered It strengthens both the mother and child prevents pain and disease, increases and enriches the food—those who have used it think it is indispensable It is highly useful before and after confinement, as it prevents diseases attendant upon childbirth—as Costiveness, Cramps, Swelling of the Feet, Despondency, Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal The great beauty of this medicine is it is always safe, and the most delicate use it most successfully, very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful Exercise in the open air, and light food with this medicine, will always insure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally to use upon applied to the face, very soon spoil all of its beauty. They close the pores of the skin and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the silkiness used in soaps, beautifies its own producing in the human face divine, as no wellies in the garden of Eden and Heavenly Eden and refugent flowers A free, mild and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities is that which paints the countenance in the most exquisite beauty It is that which imparts the indescribable shades and freshness of youth, that all thirst but none can describe This beauty is the offspring of nature—not of powder or soap. If there is not a free and healthy circulation, there is no beauty If the lady is fair as driven snow, if she paints and use cosmetics, and the blood is torpid, cold and impure she is not beautiful If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating

This is the reason why the southern, and especially the Spanish ladies, are so much admired, Ladies in the north who take but little exercise or are confined in close rooms, or have pallid Dyspeptic complexions by the application of cosmetics are strangers, if they wish to regain a share of rosy, buoyant spirits, sparkling eyes, and beautiful complexions, they should use Dr Townsend's Sarsaparilla. Thousands who have tried it are more than pleased and are delighted Ladies of every station are now purchasing daily.

HIGHLY CONCENTRATED

SARSAPARILLA

Cures the Worst Diseases that ever preyed on the Human System, and saves Thousands of Lives

Annually!!

10.000 CASES

Of SCROFULA cured by it this year and 5,000 Cases DYSPEPSIA and HUMORS of which *proofs* can be furnished This is the only medicine known to cure these diseases

ONE BOTTLE Sarsaparilla will be FOUR QUARTS OF WATER to a Bottle and then be far superior to any in use It is put into the Bottle its FULL STRENGTH and power, without reducing it and this is done for the special benefit of the consumer as it is objected to all other Sarsaparillas that they are Weak Clumsy Adulterated Sickish and are really incapable of reaching the seat and cause of the disease But this Sarsaparilla comes warranted to do

Six Times Stronger

than any other and Six Times Better Safer Surer, and Cheaper than all others *THIS* Sarsaparilla has been tried on some of the best MEDICAL Doctors and Skilled in the world and CURES all the Sicknesses KILLS all the Pain and REMOVES all the suffering that it is in the power of Human means to do It Cures

Scrofula, Dyspepsia, Jaundice, Liver Complaint, Humors, Canker, Costiveness, Rheumatism, Cancer, Debility of the System, Salt Rheum,

and every Disease which arises from **Impure Blood!**

CONSUMPTION CURED WITH

KELLEY & CO'S SARSAPARILLA!

A PHYSICIAN, who is truly the most distinguished of any in a large City for professional skill CERTIFIES to a fact so astonishing as it may seem, that he actually CURED a case of **Consumption** with Kelley & Co's Sarsaparilla, and says that there is no medicine in which he has so much confidence for **Diseases of the Lungs**" Some will marvel at this REMARKABLE Cure but hundreds are knowing to the fact This INESTIMABLE Sarsaparilla is also doing wonders in foreign cities And says

SIR BENJAMIN BRODIE,

Surgeon to the Royal Family of England that there is no other medicine which is CAPABLE of doing so MUCH GOOD and yet so INCAPABLE of doing injury What distinguished compliments are these! Never was there a medicine honored with STRONGER RECOMMENDATIONS It CURES when everything else fails the

Severe Scrofulous Humors,

where the flesh falls off the bones—the bones are diseased and the DART OF DEATH seems ready to strike the sufferer And the reason for this is, that it makes the **BLOOD** perfectly Pure Rich Healthy and Free Nutritious It CURES all those ALARMING cases of DYSPEPSIA and JAUNDICE where the Liver is Swollen and Painful Strength lost Appetite gone Tasteless Weak or Feverish Stomach Nervous Irritable Stores Health Strength, and Vigor to every Secreted function of the System—causing them to move on just as Nature requires And for the WONDERFUL Four over Diseases enumerated form and part which no other Medicine possesses, the public justly style it the

Master Remedy of the Age!

The great secret of its triumphant success over all other Sarsaparillas is, that it does not temper with the patient or prolong his sufferings But at first attacks the disease and stops it then removes it then brings up the flesh and strength on a perfectly pure Blood, so that the cure is always thorough and permanent Others only scatter, or hide the disease, but this EXTIRPATES it wholly from the system—this saves the patient alife while others endanger it The whole Body is made so healthy by the use of this GIANT MEDICINE, the System so vigorous—Mind so cheerful—Nerves so quiet—Skin so fair—Spirits so buoyant that **Medical Colleges, Professors,** and Physicians always prefer it, for the sake of its Superiority Try it all you who are seeking the PRICELESS BLESSINGS OF HEALTH

Ladies, Married and Unmarried!

It is for you especially that this Sarsaparilla is made as the HEALING ART has been tasked to the utmost to have it exactly suited to FEMALE COMPLAINTS. These Complaints have never been cured for as they ought, hence it is that all the medicines which are used with the hope of Cure, so invariably and entirely fail But this Sarsaparilla has the **SPECIAL** ability to cure every Disease Affection, or Pain, which comes under this head It regulates the secretion;—corrects the irregularities of the System—restores strength to every part—beautifies the complexion—imparts a flow of spirits—cures palpitation of the Heart—removes Blotches, Pimples, Freckles
